### WARRANTY

PRYME Radio Products warrants all products against defects in materials or workmanship as follows: during the warranty period (90 days, 1 year or 2 years, depending on model, from the date of purchase), PRYME Radio Products will repair or replace a defective unit, at our option, without charge for parts or labor. The limited warranty is extended only to the original purchaser and is valid only to consumers in the United States and Canada. It does not cover damage or failure caused by or attributable to abuse, misuse, improper or abnormal usage, faulty installation, improper maintenance, unpreventable natural catastrophes, or other incidences of excessive voltage, or any tampering or repairs by other than a PRYME authorized repair facility. It does not cover replacement of consumable parts, transportation costs, or damage in transit. This warranty will become void if the serial number or model number identification has been wholly or partially removed or erased.

Repair or replacement under the terms of this warranty does not extend the terms of this warranty. This warranty can only be modified by an officer of PRYME Radio Products, and then, only in writing. Should this product prove defective in workmanship or material, the consumer's sole remedies shall be such repair or replacement as provided by the terms of this warranty. Under no circumstances shall PRYME Radio Products be liable for any loss or damage, direct, consequential, or incidental, arising out of the use of or inability to use this product. Some states do not allow limitations on how long an implied warranty lasts or the exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights, which may vary, from state to state.

PRYME Radio Products ships all domestic orders by UPS or US Post. International orders are shipped by Mail, DHL or FedEx. Shipping by different methods (U.S. Mail, trucking lines, etc.) is available at the customer's request. However, any shipping methods requested must provide some way of tracking the product in transit and require at least a signature as proof of delivery. PRYME Radio Products will not use a shipping method that does not provide at least these two safeguards unless the customer specifically requests it. PRYME shall not be held responsible for any product lost or damaged in transit if that product was shipped by an alternate method. The customer shall be responsible for the actual shipping charges in all cases, plus a handling fee of \$3.00 per box. Unless by special offer PRYME does not offer free shipping on orders for any reason. In special cases, drop shipping to another address other than the dealer's address can be available for an additional \$3.00 per shipment.

## PLEASE NOTE

PRYME Radio Products are designed to produce a specific audio output level at maximum rated power. Modifying these devices in any way including adding or removing components and accessories may change the audio output of the device and could result in PERMANENT HEARING DAMAGE.

Many countries have regulations defining the amount of noise that an individual can be subjected to during a normal workday. Compliance is application-dependent and standards vary. It is the SOLE RESPONSIBILITY of the end user to determine applicability and compliance to local hearing protection regulations.

PRYME strongly recommends that the radio is off before installation of audio accessory. Once audio accessory is securely installed radio can be turned on. Radio volume switch is recommended to set at low position and adjusted once radio is turned on.
