BLUETOOTH ADAPTER KITS FOR MOBILE RADIOS

Pryme BLU BT Mobile Kits have recently been upgraded. These new kits eliminate the Cigarette Plug adapter and now provide Receive audio in addition to Transmit audio. As before all adapters are available with either remote wired, footswitch, PTT or wireless (Bluetooth PTT). Also note that most of these new adapters plug into the rear accessory connector of the radio but sometimes radio programming needs to be modified and the speaker microphone can still be used on these models. However on some models the adapter has to use both rear speaker jack and front microphone connector and these versions are indicated by the letter J in the part number. HEADSETS FOR MOBILE RADIOS

Sometimes a user needs a comfortable headset to use on their Mobile Radios. The HLP Series is a light but very rugged Headset with padded Speaker and headband for maximum user comfort. The Mobile Radio version of the HLP series features a 6 foot shielded cable, in-line PTT switch and a selection of popular radio connectors (many are plug-and-play but rear accessory connected headsets might need radio re-programming or internal radio modifications - check with the factory for details if you need rear accessory connected models). **CLICK ON PICTURE FOR WEB LINK TO FIND OUT MORE.**
