

WTX-PTT1500D **NEW!** Waterproof Tactical Push-to-Talk Button with Wireless Bluetooth

For use with PRYME's Throat Mics, Headsets, and other Tactical Audio Accessories

MSRP \$160

The WTX-PTT1500D requires a compatible wired headset or other audio accessory (sold separately).

Note: The Bluetooth feature of the WTX-PTT-1500D is powered by the attached two-way radio. The WTX-PTT1500D does not use a battery and does not require recharging.

FEATURES

- Works with any PRYME tactical audio accessory such as throat mics, headsets, speaker mics, and more (sold separately)
- Works wirelessly with PRYMEBLU BTLE (Bluetooth Low Energy) Push-to-Talk buttons such as the BT-PTT-Z (sold separately)
- Large front-facing PTT button for tactical set-up
- Auxilliary PTT button for thumb-activation
- Powered by the radio (does not require charging)
- Large PTT housing is waterproof (IP68 rated)
- Low-profile LED status indicator
