### 3-Wire Accessories

For versatility in true surveillance applications, it is hard to beat PRYME's 3-wire audio accessories. These kits are easier to use and conceal under clothing because each component of the kit (earphone, microphone and Push-to-Talk) is connected to the two-way radio via a separate cable. This allows you to stay in contact without drawing too much attention to your two-way radio.

<p><b>SPM-3300 Series - Page 48</b></p> <p><b>Recommended for Security and Public Safety</b> MSRP \$70-\$90</p> 		<ul style="list-style-type: none"> <li>• Designed for high level of covert communications</li> <li>• Micro lapel mic can transmit under clothing</li> <li>• Barrel PTT form fits for easy transmission</li> <li>• TWIST CONNECT acoustic tube assembly for hygiene and multiple users</li> <li>• Reinforced earphone clip provides cable retention and eliminates strain on earphone</li> </ul>
