

Bluetooth adapters allow you to use a compatible wireless headset or other audio accessory with your 2-way radio.

Our adapters pair easily with thousands of off-the-shelf Bluetooth headsets and remember paired connections, even if the radio is turned off. If used with a headset that supports multiple pairings, the PRYMEBLU® adapters enable operation of both your cell phone and two-way radio with the same headset. The accessory jack also allows you to connect any PRYME QD™ (Quick Disconnect) series wired audio accessory, such as a remote Push-to-Talk or lapel microphone, in combination with the wireless headset.

Adapter Part #	Manufacturer	Connector	Description	PRICE
