

PRYME SPM-2000 2-Wire Surveillance Kit – Dual PTT

The PRYME SPM-2000 Series surveillance kit is for anyone who needs low-profile, dependable communications. The kit includes an acoustic tube earphone and slim line microphone. It is meant to be worn under the user's clothing with the mic dropped down their shirt sleeve, or clipped to their lapel. In addition to being stealthy, the SPM-2000 is also durable. It has a heavy microphone cable with a strong polyurethane jacket and superior strain relief. The mic housing is made of high impact polycarbonate for long field life. The entire earphone is easily removeable and can be replaced or repaired to extend the life of the product.
