

PRYME TROOPER® SPM-2100

Rain Resistant Remote Speaker Microphone

The Trooper® has a polyurethane-jacketed microphone cable, with ample strain relief, and an impact-resistant, rubber sealed, polycarbonate housing. The Trooper® is built for a long lifespan of heavy-duty use. It has a large Push-To-Talk switch on the side of the mic, and extends over the top, which allows it to be pushed easily while wearing gloves. The Trooper® has a spring loaded metal reinforced clothing clip that can rotate a full 360 degrees, allowing the user to wear the mic securely with most types of uniforms. The Trooper® has a high quality electret condenser-style microphone element for clear transmission. The Trooper® also has a powerful speaker that provides ample sound. For added privacy, the Trooper® has a 3.5mm earphone jack for listen-only earpieces.

FEATURES

- Professional quality, water-resistant, remote speaker microphone
- Heavy-duty construction, featuring polyurethane cables and impact-resistant polycarbonate housing
- Rubber sealed housing for heavy-duty use in wet environments
- High-quality speaker and mic elements provide clear audio on both transmit and receive
