HEADSETS FOR MOBILE RADIOS

Sometimes a user needs a comfortable headset to use on their Mobile Radios. The HLP Series is a light but very rugged Headset with padded Speaker and headband for maximum user comfort. The Mobile Radio version of the HLP series features a 6 foot shielded cable, in-line PTT switch and a selection of popular radio connectors (many are plug-and-play but rear accessory connected headsets might need radio re-programming or internal radio modifications - check with the factory for details if you need rear accessory connected models).
